

# Highlight

## A detailed view

For a single circuit, users can zoom in to see detailed traffic and health information for any day, week or month. Reports are vivid and easily understood, thanks to clear graphics and consistent colour coding. Highlight can present the details in different time zones, and can be set to ignore traffic or events outside working hours, or scheduled maintenance windows.

Flag represents Time Zone

Choose a day, week or month View

**Traffic Panel:**  
Data flows for the selected day, week or month in clear colour coded graphics

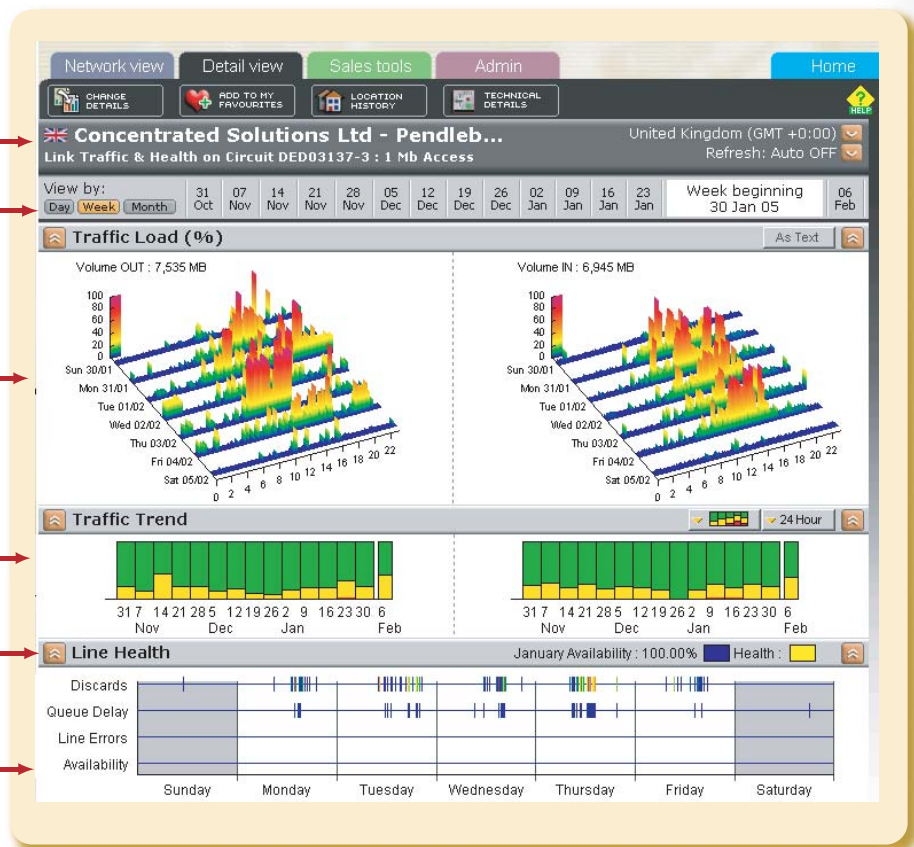

**Traffic Trends Panel:**  
3 and 18 month summaries show 24hr and business hours activity

SLA Adherence

**Health Detail and summary Panel:**

- Discarded packets
- Queued / delayed packets
- Bad packets received (CRCs etc)
- Link outages

Click for a detailed list of outages

Information is also available in statistical form with a single click
